CAMPUS SECURE+

Real-World Use Cases That Matter

Built For Every Role.
Proven In Every Scenario.

CAMPUS Secure+ brings together physical safety, cybersecurity, and compliance under one unified platform; delivering peace of mind for leaders, staff, and families across your district.
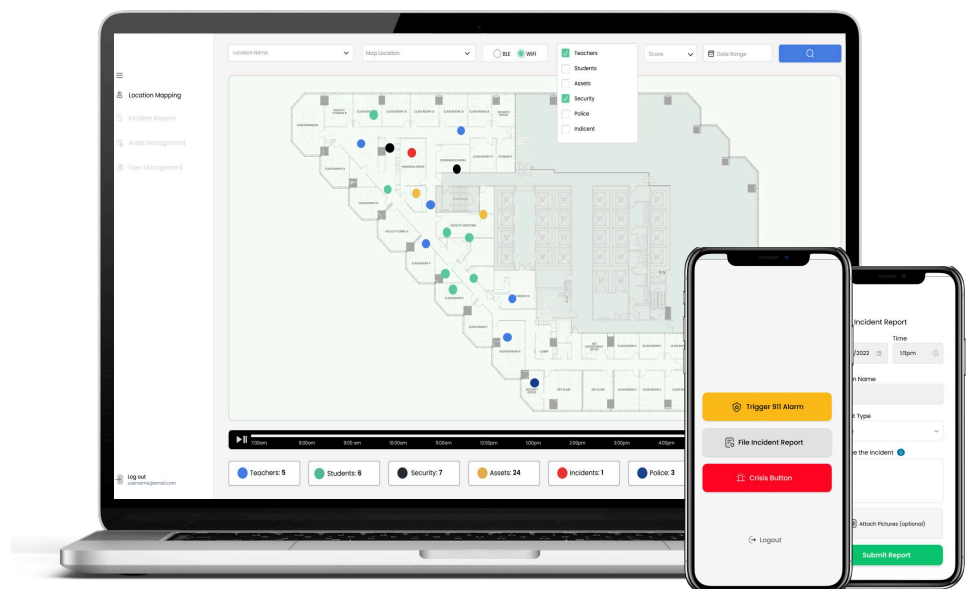

Director Of Technology / IT Manager

Scenario:
Ransomware + Visitor Spoofing on the Same Day

Ms. Jordan, the IT Director, is alerted to unusual lateral movement in the district's network—a clear sign of a ransomware attack. At the same time, a campus safety officer reports that a parent who entered the building doesn't match their visitor registration data. In the past, these incidents would involve two separate teams: IT and Facilities—and two separate systems.

With CAMPUS Secure+

- The SIEM Dashboard Links Network Anomalies With Visitor Badge Mismatches.

- The System Isolates The Network And Locates The Suspect Visitor Via BLE Tracking.

- End-To-End Encryption Ensures All PII Remains Protected.

Outcome:

No data breach. No panic. One interface manages both physical and cyber threats in real time—something point solutions can't deliver.
