Securing and Protecting Your Dealership

Modern dealerships face increasing cybersecurity, compliance, and operational challenges.

Our Objectives for Auto Dealerships

- Provide critical compliance and security, reducing operational complexities and costs.
- Facilitate vendor management and improve internal workflow visibility and efficiency.
- Support the digital transformation of automobile sales through customer engagement
- Enhance the customer experience and journey across all touchpoints.

Our Platform: Built for Dealership Resilience

The **Secure+ Automotive Platform** delivers security, control, automation, efficiency, and compliance to protect your digital transformation journey.

MITIGATE

Managed Security Platform

Safeguard sensitive data, meet regulatory compliance requirements, and ensure a resilient defense against cyber threats.

ALERT

Mobile Safety Button & Emergency Response

Real-time location and incident data empowers Staff & First Responders to respond promptly and effectively to changing circumstances.

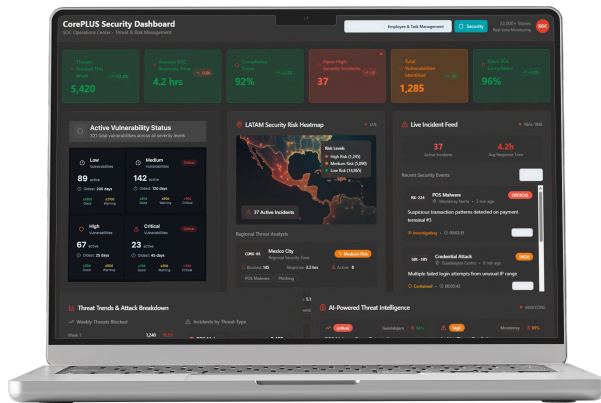

LOCATE

Physical Security & Situational Awareness

Effortlessly track, quantify, and visualize customers, visitors, staff & assets

Take Control of Cyber and Physical Security Now

Turn reactive security into proactive business advantage — protecting operations, customers, and reputation through combined cyber + physical capabilities: **+MITIGATE + LOCATE + ALERT.**

MITIGATE

Managed Security Platform

+MITIGATE is a fully managed cybersecurity and compliance platform designed for dealerships and organizations under regulatory pressure. It unifies 24/7 detection and response, continuous governance, and audit-ready reporting, ensuring security translates into measurable business value.

Four Scalable Service Levels:

Basic: Foundational GRC-light program with security awareness and education.

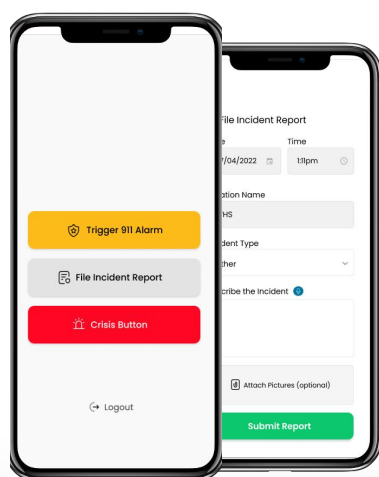

Essential: Enhanced compliance and monitoring for growing organizations.

Advanced: Fully managed MSP/MSSP with integrated threat protection and incident response.

Enterprise: Complete suite with best-in-breed technologies for data protection, network defense, and ransomware prevention.

ALERT

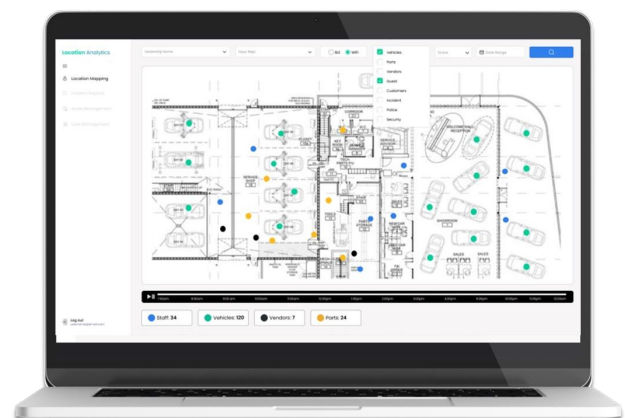

Mobile Safety Button & Emergency Response

Automated incident alerts, escalation workflows, and multi-channel notifications tied to devices, dashboards, and on-site alarms.

LOCATE

Physical Security & Situational Awareness

Real-time location services (RTLS) to track staff, visitors, vendors, and high-value assets; heatmaps and flow analytics to optimize space and staffing.
